

**HAMMER KING'S**<sup>®</sup>  
THE QUALITY SAFETY SERIES

**SAFETY FOOTWEAR**

**Ver.03**

## Top Safety Shoes Brand in Malaysia

# About Hammer King's

Established in 1992, Wai Hong Shoe Industry (M) Sdn Bhd (WH Shoes) is one of the top footwear manufacturers in Malaysia. With over 27 years of experience in research and development (R&D) and manufacturing trendy casual footwear and safety shoes for local and international shoe labels, WH Shoes has won recognition in the shoemaking industry for its range of top-notch men's footwear, such as safety boots, dress shoes, and sandals.

Our production line comprises both mechanical and manual operations to maximise production efficiency and process quality. In addition, we have actively participated in various international shoe expos to share our Malaysian shoemaking expertise with the world. WH Shoes is also renowned for its leading safety footwear brand, Hammer King's®.

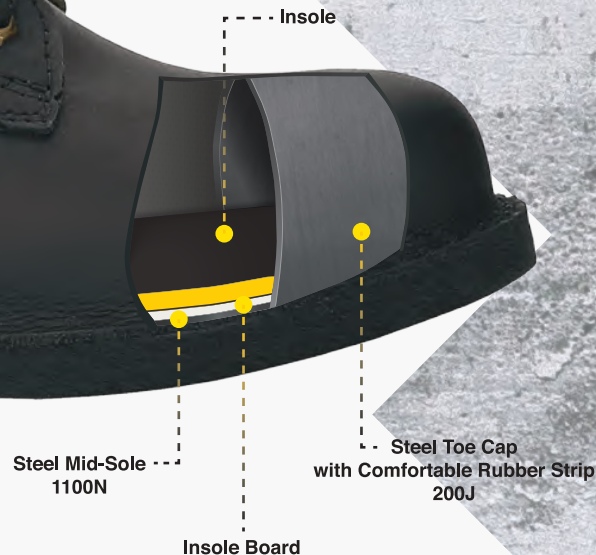

True to its motto "Never Give Safety a Day Off", Hammer King's® safety shoes are thoroughly tested and certified with Malaysian Standard (MS) for quality and safety assurance. Launched in 2016, Hammer King's footwear are made with top-grade materials like high quality leather, breathable fabrics, robust linings and outsoles that are sourced worldwide. We understand the importance of owning a good pair of safety boots. They should be sturdy enough to protect yourself from tough conditions, without compromising on comfort and style. You can count on Hammer King's® safety boots to keep you on your feet all day long.

# Features

- » Excellent builds quality & certified with Malaysian Standard (MS-SIRIM), Jambatan Keselamatan dan Kesihatan Perkerjaan Malaysia (JKKP) and Department of Occupation Safety & Health Malaysia (DOSH)
- » Competitive prices and attractive high gross margin for our dealers
- » Guaranteed that all selected models are always on stock
- » Top quality, protection & timeless design

## Top Quality, Protection and Comfort

The shoe upper is made of high quality real leather to ensure foot safety and maximal comfort

The side seams are strengthened to enhance safety and durability

Rubber soles to resist wear and tear and to accord anti-slip property against oily surfaces

High quality steel plate / Kelvar material insole for extra protection to the foot

Solid steel / composite cap at the tip to protect the toes and increase durability

Good quality rubber insole for anti-slip and heat resistant properties, giving extra comfort and safety to the foot
